Pentamaster Corporation (PENT MK)

1H25: Within House Expectation; Improved Visibility Anchors A Better 2H25

Pentamaster's results are in line with margins showing an improvement in 2Q25. While orderbook remains at RM350m, visibility has improved following clearer tariff outcomes, with customers gradually resuming capital investments. The group is actively exploring opportunities in AI, DC, high-performance computing and networking to capture next-gen technology growth. Raise 2025-26 earnings forecasts by 7-12% to reflect higher margins. Maintain HOLD. Target price: RM3.75.

RESULTS

- **Within our but below consensus expectations.** Pentamaster Corporation (Pentamaster) reported a sequentially stronger 2Q25 core net profit of RM19.0m (+103% qoq, -33% yoy), bringing 1H25 core net profit to RM28.4m which accounts for 44%/38% of our/consensus full-year estimates respectively. We deem the results to be within expectations as 1H typically made up 43-50% of the full year's earnings for the past three years.
- **1H25 revenue fell 19% yoy,** as robust growth in the Automated Test Equipment (ATE) segment (+26% yoy) was more than offset by a steep 52% yoy decline in Factory Automation Solutions (FAS) revenue. By end-market, sales to the consumer/industrial and semiconductor segments rebounded strongly (+120% and +80% yoy, respectively), driven by recovering demand for FAS and test handling solutions. However, the medical segment – previously the largest contributor in 1H24 – saw its revenue plunged 73% yoy, mainly due to timing differences in project deliveries in 1Q25. Core net profit declined by a sharper 29% yoy, pressured by an unfavourable product mix.

ANALYST(S)

Desmond Chong
+603 2147 1980
desmondchong@uobkayhian.com

- **Qoq**, revenue improved 10%. Strong revenue growth from the medical segment (+317%), driven by project deliveries, more than offset the decline in the ATE segment due to weaker contributions from the automotive and semiconductor sectors. On the core net profit level, earnings doubled on better operational efficiency and a favourable product mix.

STOCK IMPACT

- **Orderbook remains at RM350m, but visibility improves.** Pentamaster's 2Q25 orderbook stood at RM350m (rolling basis), in line with the previous quarter. The operating environment in 1H remained challenging, with margin pressure from elevated input costs, intensified pricing competition, and delayed project rollouts amid trade uncertainty. However, visibility has improved following clearer tariff outcomes, particularly for the ATE segment, where customers have gradually resumed capital investments in next-gen test handling and burn-in systems, especially in logic and power semiconductor subsegments. Meanwhile, the FAS division remains proactive in diversifying its customer base and extending its reach beyond traditional strongholds, targeting growth areas such as renewable energy, data centres, and healthcare automation.

- **On the strategic front,** following the successful privatisation of PIL with Puga Holdings Limited - a holding company backed by a leading semiconductor private equity firm, prominent Taiwanese semiconductor players, and global sovereign wealth funds - Pentamaster is beginning to unlock strategic advantages. Puga's extensive network and investment portfolio in the global technology ecosystem, particularly in Taiwan and the US, has opened greater access to new customers, collaborative R&D initiatives, and strategic market-entry opportunities.

- **Secular growth anchors remain intact.** The group continues to strengthen its capabilities in advanced packaging technologies, underpinned by accelerating demand in AI, high-performance computing (HPC), and other data-intensive, high-speed applications. These structural trends provide a favourable backdrop for long-term growth, positioning Pentamaster to capitalise on next-generation technology opportunities over the mid to long term.

EARNINGS REVISION/RISK

- After the results, we increase our 2025-26 earnings by 7-12% to account for better margin assumptions and higher orders from the medical and renewable energy segments.

VALUATION/RECOMMENDATION

- **Maintain HOLD with a higher target price of RM3.75** based on 34.0x 2026F PE (average SPE's seven-year forward PE). The stock has rebounded from its April trough of RM1.90, supported by improving sentiment on clearer tariff outcomes and strengthening fundamentals. Following this sharp recovery, we are of the view that the current valuation is fair as it presents a balanced risk-reward profile. Hence, we maintain HOLD.

ENVIRONMENTAL, SOCIAL, GOVERNANCE (ESG) UPDATES

• **Environmental**
- To minimise waste, Pentamaster only starts material procurement, assembly and programming once a suggested solution is approved by its customers.
• **Social**
- In 2020, besides various donations to support NGOs, Pentamaster provided used computers to schools and charity homes to support e-learning, low-cost ventilators to support local hospitals, and financial assistance to the needy.
• **Governance**
- The company has in place an Anti-Bribery and Anti-Corruption Policy. - There were zero whistle-blowing and bribery instances in 2020.
